# So what does all this mean?

**EMC has created the network  
for manufacturers throughout Canada.**

We are building a better case for manufacturing in Canada...  
providing vital solutions for its long-term growth here at home  
and improved competitiveness around the globe.

**EMC has assembled the most comprehensive reservoir of  
industry knowledge and subject-matter expertise available for  
manufacturers today!**

# How else does EMC assist?

**EMC delivers essential skills training with the Nova Scotia Department of Labour and Advanced Education (LAE)**

Building on our success at networking manufacturers, EMC is working with LAE to form regional “clusters” of manufacturers that share the same training gaps to deliver practical and relevant skills training.

**As a result, our collaboration has delivered over 25,000 person-hours of training in 2.5 years across the province.**

**A true win/win/win**
